FLAGSTONE EVOLUTION

Protect your mobile data with a trusted, accredited hardware encryption solution.

Developed specifically for corporate and government organisations seeking exceptional data security, Eclipt is a direct replacement for your computer's standard hard drive.

Eclipt *picofreedom* is a USB flash drive developed to protect mobile data inside and outside the corporate environment.

Eclipt *freedom* is an external encrypted hard drive which has been developed to meet corporate and government needs for both portable data security and a secure back-up facility.

Eclipt

- AES 256-bit encryption
- Operating system and service pack independent
- Application software independent
- Up to 128 user accounts per drive
- 3-tiered user management system
- Supports imaging, partitioning and diagnostic applications

Eclipt Corporate

Suitable for up to Sensitive level data (Impact Levels 1 & 2)
Optional two-factor authentication

Eclipt Baseline

CESG approved for up to Restricted level data (Impact Level 3)
14 character password authentication
Reduces the protective marking by 1 level (e.g. Restricted to NPM)

Eclipt Baseline Plus

CESG approved for up to Confidential level data (Impact Level 4)
15 character password authentication
Reduces the protective marking by 1 level (e.g. Confidential to Restricted)

Eclipt Enhanced

CESG approved for up to Top Secret level data (Impact Levels 5 & 6)
Two-factor authentication - 9 character password & 1 Touch Memory token
Reduces the protective marking by 2 levels (e.g. Top Secret to Confidential)

Eclipt picofreedom

- USB 'plug & play' connectivity
- AES 256-bit encryption
- FIPS 140-2 validated
- Transfer speeds: 24MB/s Read, 20 MB/s Write
- Optional Central Management System

Supported platforms: Windows 2000 (SP4), Windows XP (SP1, SP2),
Windows 2003 Server, Windows Vista

Eclipt picofreedom (Non FIPS)

Suitable for Unclassified level data (Impact Level 1)

Eclipt picofreedom (FIPS)

FIPS approved for up to Sensitive level data (Impact Level 2)

Optional Central Management System - PICO Console

- Centralised updates & configuration of all drive parameters
- Restricted operating environment to prevent unauthorised use
- Complete reporting and monitoring of drive usage
- Restore or recreate lost and stolen drives
- Remote password administration
- Centralised application distribution
- Remote termination of lost drives

Eclipt freedom

- USB connectivity
- AES 256-bit encryption
- Application software independent
- Up to 128 user accounts per drive
- 3-tiered user management system
- Supports imaging, partitioning and diagnostic applications

Eclipt Freedom Corporate

Suitable for up to Sensitive level data (Impact Levels 1 & 2)
Optional two-factor authentication

Eclipt Freedom Baseline

CESG approved for up to Restricted level data (Impact Level 3)
14 character password authentication
Reduces the protective marking by 1 level (e.g. Restricted to NPM)

Eclipt Freedom Baseline Plus

CESG approved for up to Confidential level data (Impact Level 4)
15 character password authentication
Reduces the protective marking by 1 level (e.g. Confidential to Restricted)

Eclipt Freedom Enhanced

CESG approved for up to Top Secret level data (Impact Levels 5 & 6)
Two-factor authentication - 9 character password & 1 Touch Memory token
Reduces the protective marking by 2 levels (e.g. Top Secret to Confidential)
